Retaining Clips	Qty: 2

	TOOLS REQUIRED
	None

NOTE
2-18400 Folding windshield is used on the older style "lo-rise" hoods.
2-18411 Folding windshield is used on the newer style "hi-rise" hoods.
Consult Customer Service if unsure about which unit you have.

DEALERS

If supplied, apply the POP information windshield decal to the outside of the windshield on the lower passenger side.
By placing decal on the bottom half of windshield, you will be able to read it when the windshield is folded up or down

WASH WINDSHIELD WITH WATER ONLY (NO CHEMICALS) & SOFT CLOTH, AND THEN DRY WITH SOFT CLOTH AS NECESSARY.

Procedure:

- 1 Remove windshield from the box and unwrap.
- 2 Locate the two large plastic clamps wrapped separately. (Usually inside the folded windshield)
- 3 Slide a clamp on each side of the windshield as shown in figure 1. **The edge of the clamp should be against the step in the windshield which is 2 inches below the hinge as shown in figure 2.**

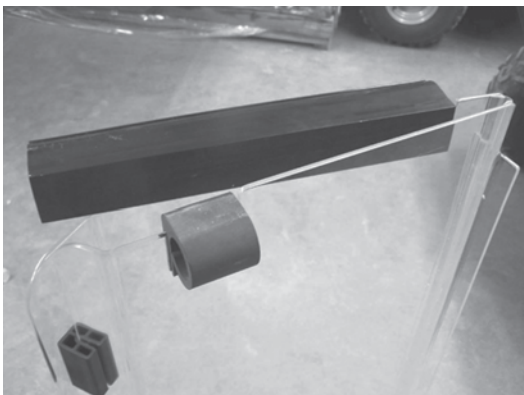

Fig. 1

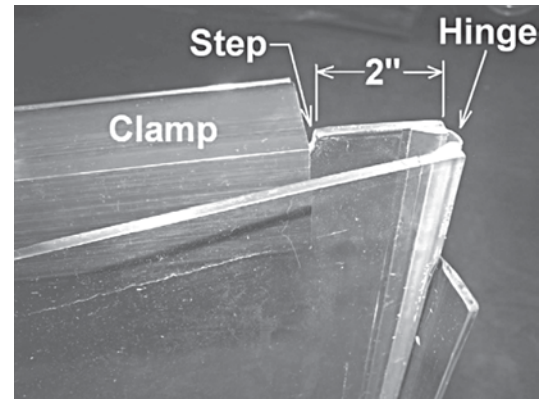

Fig. 2

- 4 Remove retaining strips from the clamp and clip windshield onto vehicle cage so that the clamp is resting on top of the cage bolt as shown in figure 3.

Fig. 3

- 5 Install the retaining strip on each clamp by hooking one side and snapping the other side down as shown in figure 4. **(Tip: It might be preferable to hook the clip to the inner side of the clamp first.)**
